Requirements for entering Spain if you are travelling from United Kingdom

1. Vaccination certificate (at least 14 days from the last dose of vaccination). Accepted vaccines: Pfizer-Biontech, Moderna, Astra-Zeneca, Jansen/Johnson&Johnson, Sinovac and Sinopharm.

2. The vaccination certificate must include at least the following information:

   – Full name of the holder.

   – Vaccination date.

   – Type of vaccine administered.

   – Number of doses administered/completed course.

   – Issuing country.

   – Identification of the organization issuing the vaccination certificate.

   Diagnostic certificate. The diagnostic certificate must illustrate a negative COVID-19 test result (NAAT type, e.g TMA, PCR, LAMP & NEAR) issued within 72 hours of arrival into Spain. Antigen tests will not be accepted.

3. Please bear in mind that before travelling to Spain (even in transit) you must have the QR code which is obtained from filling in the Health Control Form (FCS in Spanish) available in Spain Travel Health (SpTH).

Important Note: Bear in mind that you cannot use the paper form. You must download your QR code and show it to the national authorities either on your mobile device or printed on paper
